Slik legger du til Skolon Teams-appen i menylinjen

Pär Wallin - 2026-01-22 - Microsoft Teams

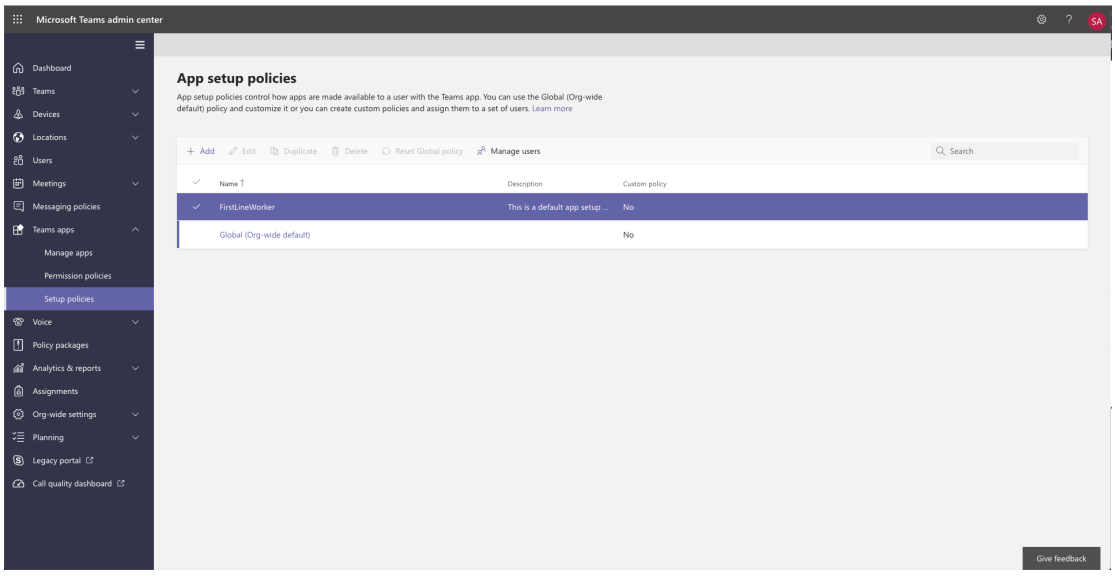

I denne artikkelen vil du lære hvordan du som administrator legger til Skolon Teams-appen i Teams-menylinjen.

Velg "Teams apps" i venstremenyen, og klikk deretter på "Manage apps".

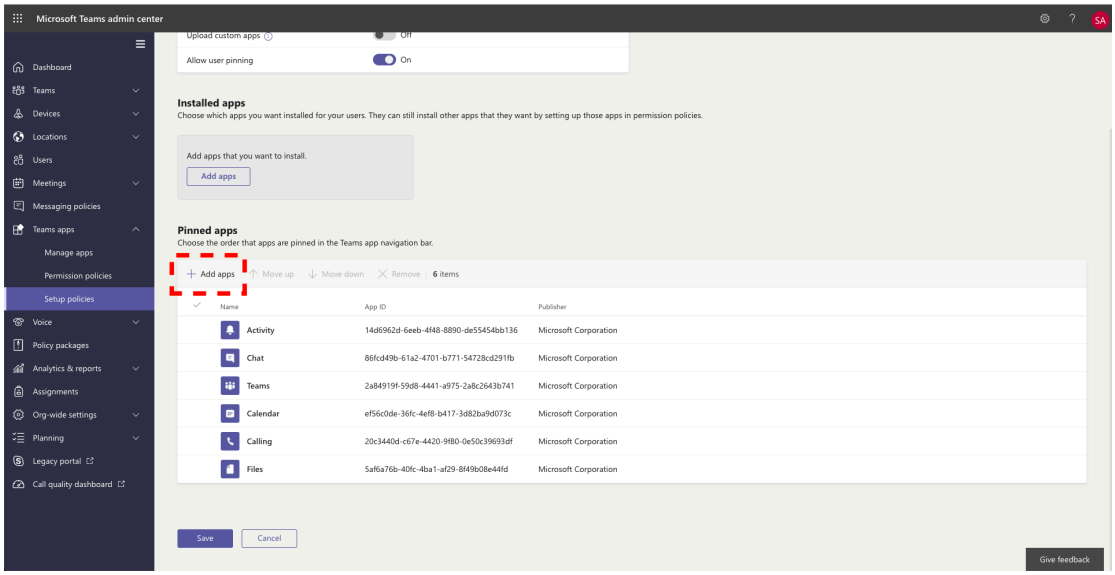

Alle apper som er tilgjengelige i Teams vises. Her kan du velge å tillate eller blokkere apper i Microsoft Teams. Søk etter Skolon, og deretter kan du tildele appen.

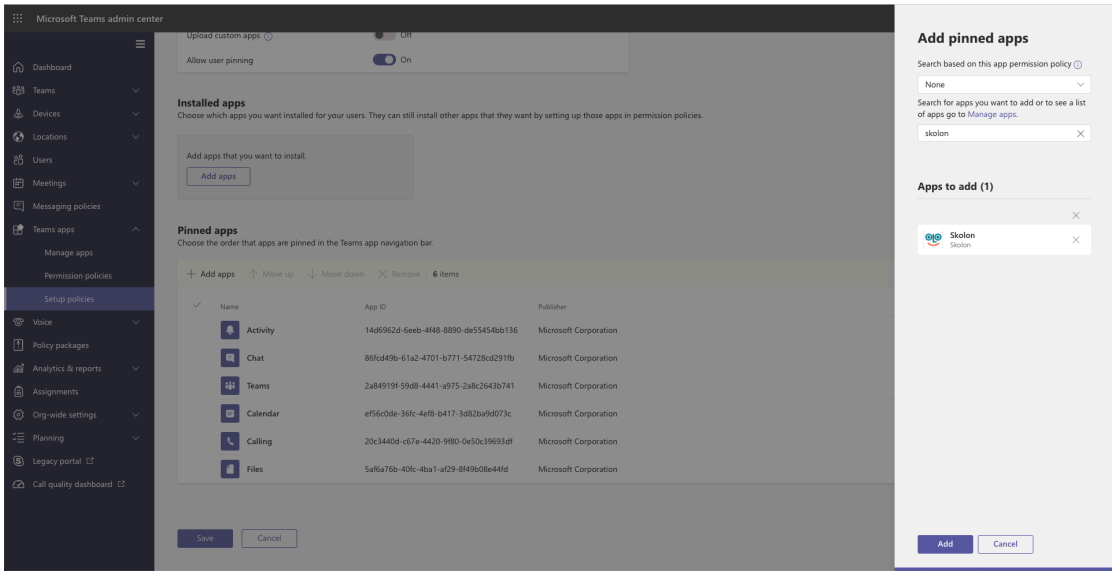

Deretter klikker du på «Set up policies» og konfigurerer en policy for hvilke brukere som skal ha appen ved den aktuelle skolen.

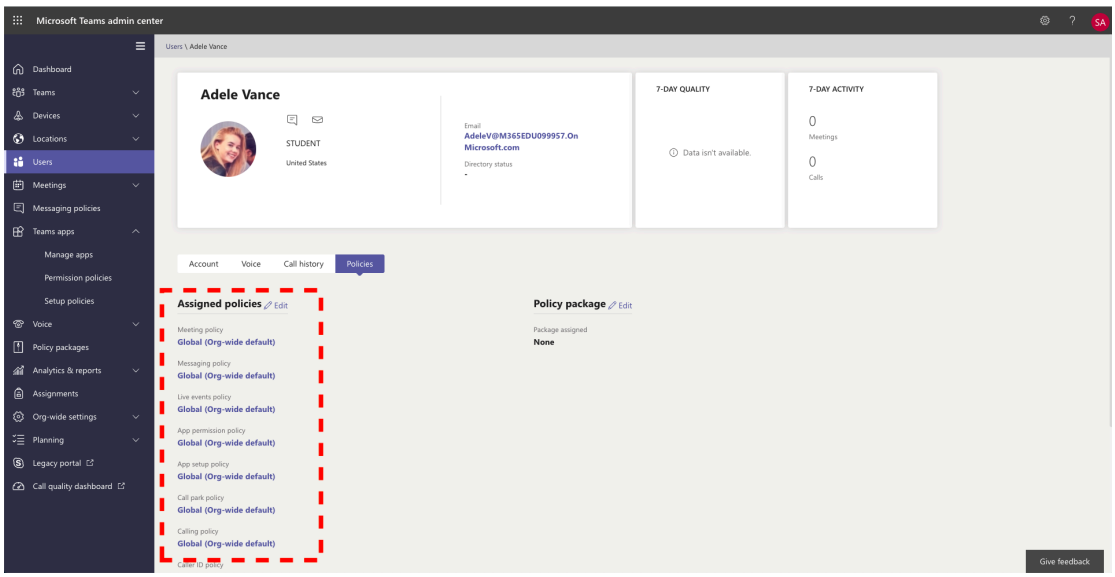

Du velger gruppen som skal ha tilgang og klikker på "Add apps”.

Policies installeres på brukernivå.

Script er nødvendig for å installere policies.
